Are You Recommending the Right Solution to Your Clients?

Find out how your electronic payment processing recommendation can save your clients money, keep them in compliance with the latest processing and security requirements, and earn you a generous recurring revenue stream.

If your clients accept electronic payments, have thought about accepting electronic payments, or are interested in having their customers pay invoices on-line, then you should be relying on an experienced, service-focused partner to help navigate your clients through the myriad of processing options and industry regulations that go along with accepting the most widely used forms of payment in business today; credit cards and electronic checks.

Program Benefits

- The ability to offer clients a robust and mature Visa PCI certified payment gateway vendor, with world-class security, reliability and customer service.
- The ability to enhance your existing product offering by adding additional services desired by your clients.
- A unique revenue sharing opportunity unmatched by other payment gateway providers.
- Participation in AssureBuy's ongoing Partner Showcase which makes partner services available to AssureBuy clients.

COMPANY OVERVIEW

Organized in 1994, AssureBuy is one of the industry's oldest and most secure providers of Visa PCI-certified payment gateway and on-line invoicing services. As a fully outsourced service, AssureBuy allows businesses to quickly and easily integrate complex transaction-based systems without installing or maintaining expensive in-house solutions. AssureBuy's products include a real-time payment gateway, a secure on-line order management system, a web-based administration and maintenance system, an on-line invoice payment service, and a fully integrated credit card processing add-on for Microsoft Business Solutions Dynamics GP (Great Plains) accounting software. These services also include risk management and fraud prevention, level II and III transactions, tax and shipping calculations, e-mail messaging and real-time processing of credit cards, debit cards, purchasing cards and electronic checks (ACH/EFT transactions).

ADVANTAGES...

- Flexible Solutions
- Personal Service
- Industry Certified
- Reliable and Mature Technology
- Enhanced Risk Management Features
- Level II and III Processing Capabilities

WHO WE ARE...

- A managed service provider for real-time transaction and payment processing.
- A resource for reducing costs and freeing assets invested in payment processing initiatives.
- A service-conscious company that remembers customers are the only reason we exist.

WHAT WE DO...

- Securely process \$\$\$ millions in payment transactions daily.
- Offer a robust suite of electronic payment choices, including order management and on-line invoice payments.
- Minimize risk through advanced fraud detection and buyer authentication services.

HOW WE'VE HELPED...

- Gateway services saved over \$500,000 annually for a world-class e-business.
- Fraud detection systems avoided losses of over \$100,000 annually for a leading software provider.
- Outsourcing enabled an electronic publisher to avoid a \$100,000+ investment in software.
